Greenspace/Greenbelt Development and Preservation  
PDR Program  
Policy Framework (Ag & En friendly? Proactive)  
Growth & Development  
    Rate Projections  
    Rate Direction  
Conservation (Needs & Best Practices)  
    Soils  
    Water  
    Greenspace  
Preservation/Historical  
Preservation Habitat/Species  
Sustainability  
Carbon Footprint Management  
Zoning Practices  
    Agricultural  
    Residential  
    Commercial  
Riparian Buffers  
Ground Water Management  
Aesthetics  
Community Education & Outreach (re Ag, and Environ...)  
One County vs Two County Concerns (Northern vs Southern)

**Word for Sadieville** = "Ascending"

**Guiding Principles**

Sustainability  
Responsible/Managed Growth  
Traditional vs Suitable Use

**25 Year View:**

Encourage northern growth direction

USBs developed as “destinations”

Economic diversification a priority,

Regionalized strategic partnering the norm,

Efficient Transportation network (to include trials...)

Thriving adventure-tourism industry

Agricultural/Environmental concerns part of the culture, not playing “defense”

Balance Natural Resource Management as a Goal
