

Infrastructure and Community Facilities: Goals by Category:

PART 2: PROPOSED

Public Facilities and Services

1. Ensure adequate public facilities and services are available to serve the needs of businesses and residents.
2. Prepare effective, cost efficient, cooperative, and complementary county-wide capital improvements programs.
3. Planning and provision of public facilities and services should be consistent with the Comprehensive Plan and Future Land Use Map.

Infrastructure

1. Coordinate Public Infrastructure investments with the Future Land Use Map.
2. Create a Capital Improvements Plan for each municipality and coordinated its review by the Planning Commission.
3. Review new growth for its contribute to the fiscal sustainability of the city or county
4. Maintain and improve existing public infrastructure to allow for redevelopment and continued vitality in existing urban areas.

Utilities

1. Strive for the availability of High-speed affordable internet access to all citizens.
2. Locate communication towers and other utility infrastructure is located to minimize impacts to historic, cultural and environmentally sensitive areas.

Water and Sewer

1. Protect and enhance water quality in wastewater treatment shall protect and facilities.

2. Create Master Plans and capital budgets for provision of public sewer service which are in agreement with the Comprehensive Plan and support growth that follows the Future Land Use Map.
3. Ensure clean/safe drinking water is available for all residents.

Parks and Recreation

1. Reserve or acquire appropriate land is reserved to meet the open space and recreation needs of the growing population.
2. Utilize a trails master plan to guide land acquisition and trail development activities.

Impact Fees/Sustainability

1. Manage growth so that the cost of providing long-term maintenance and public services to new development is fairly distributed to those creating the need.
2. Develop Transportation and Public Facilities Master Plans and coordinate with the future land use map to determine the timing and cost of public investment needed to serve future growth.

1. Encourage growth in Sadieville that will lead to improvements in infrastructure and public services, the local economy, and the quality of life. Assist Sadieville in becoming a more self-sufficient community.
2. Sadieville's current road, water, and sewer constraints should not be a barrier to growth. Focus on the best locations for development within the capabilities of public infrastructure and services. Find positive alternatives that allow development to occur, without compromising public health and safety.
3. The City of Sadieville, Scott County, and the utility companies should work cooperatively to improve infrastructure and services in Sadieville. Special consideration should be given to Sadieville's needs in capital budgets, grant programs, interlocal agreements, and joint service programs.
4. Improve access of Sadieville residents to recreational, cultural, child care, health, and educational services.

Stamping Ground

1. To keep services adequate for all residents, while finding ways to improve water supplies and water and sewer facilities.
2. To upgrade police and fire protection for Stamping Ground and surrounding areas.
3. To increase the variety of activities and amount of park and open space in Stamping Ground.
4. To address existing deficiencies of Stamping Ground's current road system and upgrade it to accommodate growth.
